The face cream obviously reduces the signs of skin aging by reducing the damage caused by oxidative stress to the skin, deeply rejuvenating, moisturizing and toning up the skin. A silky soft texture face cream is ideal for skin care. It nourishes, excellently moisturizes and cares for the skin. The face cream obviously reduces the signs of skin aging by reducing the damage caused by oxidative stress to the skin, deeply rejuvenating, moisturizing and toning up the skin. A tropical plant origin alternative to Botox that provides immediate reduction of mimic wrinkles. The cream deeply moisturizes and strengthens the skin structure. Deep skin moisturizers – molecules – actively absorb water and guarantee skin moisturizing for 74 hours. While the lactic acid normalizes process, improves skin moisturizing and its elasticity, promoting the synthesis substance. The natural sources of silicon in the product increase the level of - an amino acid – in the tissues, affecting the synthesis of connecting tissues. Rich combination of antioxidants effectively combats free radicals, stimulates the synthesis of collagen. The combination of natural oils effectively inhibits the aging processes; they are structurally similar to skin and are rich source of vitamins and minerals. They protect the skin from losing moisture, helping to maintain its elasticity. The oil combination contain vitamins B1, B6, especially large amount of vitamin E that softens and deeply nourishes the skin, moisturizes, protects and prevents aging processes in the skin. Use Apply the cream on face in the morning and in the evening, massage until it is absorbed into the skin.
