Original labelling (text)

Improves lymphatic drainage, stabilizes metabolic processes in tissues, cools. Relieves pain, quickly restores, and ensures easy and free movements. A special combination of plant extracts, oils and minerals allows eliminating the metabolic by-products after physical activity. Active ingredients remove lactic acid from muscle tissues and restore fluid-and-electrolyte balance in tissues. It helps to stabilize the chemical processes in muscles, prevents load-induced metabolic imbalances, nourishes, moisturizes, heals and restores skin's protective function. Use Apply the product on clean skin just after exercising. The product is suitable for all types of skin, including sensitive skin.
